DOYEON KIM

github.com/lazybuttrying dodev0987@snu.ac.kr
Seoul, Republic of Korea

EDUCATION

Seoul National University, Korea *Mar 2024 - Feb 2027*
Master in Business Administration (Concentration in Finance)
Advisor: Professor Jongsub Lee (3.73/4.3)

Ewha Womans University, Korea *Mar 2018 - Aug 2023*
Bachelor in Computer Science and Engineering
Magna Cum Laude (3.87/4.3)

RESEARCH INTERESTS

Sociotechnical Systems, Algorithmic Governance, Accessibility, ML Interpretability, Financial Market Infrastructure

RESEARCH EXPERIENCE

Improving Accessibility of an Academic Administration Portal for Students with Disabilities *Mar 2025 - Dec 2025*
Junior Ombudsperson, Human Rights Center (BK21-supported), Seoul National University
– Led end-to-end participatory audit of the SNU administrative portal (mySNU): WCAG 2.1 conformance review, structured interviews with students with disabilities, and stakeholder translation to institutional decision-makers. – Recognized as an Outstanding Project with Institution-level Impact.

Dollar Stablecoin and Arbitrage under Capital Control: Evidence from the Kimchi Premium *In Progress*
Master's Thesis
– Studies limits to arbitrage in cross-border crypto markets (market segmentation, capital controls, and government/regulatory risk). – Leverages Travel Rule enforcement events as a natural experiment to trace arbitrage rerouting onto the Tron network.

On-Chain Exchange Wallet Labeling Pipeline *In Progress*
Master's Thesis, sole designer
– Collects USDT/USDC transfer records on Ethereum and Tron via Flipside and labels exchange wallets through the Arkham API; data managed as monthly Parquet files. – Keeps per-thread DuckDB connections with memory caps for parallel processing, cutting peak memory from over 128GB to under 40GB with no loss of speed.

Learning Production Process Heterogeneity: Implications of Deep Learning for Corporate M&A Decisions (Lee and Yun, 2024) *Jul 2025 - Dec 2025*
Research Assistant
– Developed weight-relationship visualizations to diagnose shared representations and identify pruning candidates.

DAO Governance (Han, Lee, and Li) *Jul 2024 - Sep 2025*
Research Assistant
– Analyzed on-chain voting behavior, participation concentration, and proposal outcomes across decentralized autonomous organizations (DAOs). – Published in Management Science.

AXI for Korean Bond Market Data *Mar 2024 - Jan 2026*
Main Researcher
– Constructed an alternative index for the Korean bond market combining primary issuance and real-time secondary trading data, surfacing participation that standard indices leave invisible.

National Pension Fund Activism: Proxy Voting and Investment Strategies (Joh, Kim and Choi, 2025)
Main Researcher *Jul. 2024 - Jan. 2025*
– The National Pension Service's (NPS) active voting at shareholder meetings correlates with its investment strategy. – Firms facing NPS opposition see reduced portfolio weight, especially those with lower ESG ratings. – Published in the Review of Financial Information Studies, 2025, 14(1), 127-152 (second author); covered by the Hankyoreh.

HONORS AND AWARDS

Excellence Award, Intelligent (Smart) Agriculture AI Competition *Nov 2021*
Foundation of Agricultural Technology Commercialization and Transfer

Bronze Medal, Kaggle PetFinder.my – Pawpularity Contest *Jan 2022*
Ranked 274th of 3,475 teams

RELEVANT COURSES

** Master/Ph.d Courses*

Economics and Finance

Advanced Microeconomics 1*	*B+*	Studies in Investments*	*A*
Studies in Econometrics*	*C+*	Studies in Derivatives*	*A+*
Applied Microeconomics*	*A*	Studies in Corporate Finance*	*A-*
Studies in Financial Machine Learning*	*A*	Studies in Portfolio Management*	*A+*
Methodology of Financial Research*	*A*	Data Analytics for Social Sciences and Business*	*A+*

Computer Science and Mathematics

Computer Network	*A+*	Calculus	*A*
Machine Learning	*A*	Linear Algebra 1	*A*
Programming Language	*A+*	Discrete Mathematics	*A*
Big Data Application	*A*	Differential Equations	*C+*
Algorithms	*B+*	Numerical Analysis	*A+*
Embedded System Design	*A+*		
Computer Architecture	*A*		

TEACHING ASSISTANT

** English Only Courses*

Ewha Womans University
IT Convergence Design (20-1)

Seoul National University
Financial Management (24-2, 25-1, 26-1), Financial Derivatives (CBA; 25-2, MBA; 24-W*, 26-S), Financial Derivatives and Risk Management (EMBA; 25-2) Fixed Income Securities (EMBA; 25-2)

PROJECTS

Real-Time Scraping: Korea Bond Market Data
- Issuance data in Primary Market and Real-Time Trading data in Secondary Market *Mar 2024 - Jan 2026*
- Data Source: Korea Financial Investment Association

SKILLS

- **Programming:** Python, C, Java, SQL, GraphQL, TypeScript, Kotlin
- **Machine Learning:** PyTorch, TensorFlow, OpenCV, LangGraph
- **Data and Infrastructure:** PostgreSQL (pgvector), DuckDB, Redis, Neo4j, PySpark, pandas
- **Cloud and DevOps:** AWS (Lambda, Step Function, EC2, S3, API Gateway), Docker Compose, GitHub Actions CI
- **Statistics:** STATA, SAS
- **AI Tools:** Claude Code, Codex, Antigravity

CERTIFICATIONS

TensorFlow Developer Certificate *Nov 2021*
Google (expired Nov 2023)

OPIc English, Intermediate High *Sep 2026*

OTHER EXPERIENCE

Agriculture Technology Lab. in Sejong University *Jul. 2022 - Jun. 2023*

Researcher, advised by Professor Hyunkwon Suh

- Computer Vision and Time Series Machine Learning for Greenhouse Automation
- Reinforcement Learning for Simulator of Agricultural Processes
- Perilla Leaf Instance Segmentation for Geumsan County (featured as an AWS Korea case study)
- Autonomous UAV Grape Grading (Excellence Award, Intelligent (Smart) Agriculture AI Competition, Nov 2021; presented at UIC Barcelona)

NEXTLab *Mar. 2022 - Jun. 2022*

Intern, Department of Intelligence Automation Service

- Developed Wanted Vehicle License Plate Detection System Using LRPNet
- Implemented Automated Data Transfer to an FTP Server Via Asynchronous Socket Communication
- Covered by AI Times

Human Computer Interaction Lab. in Ewha Womans University *Dec. 2019 - Feb. 2020*

Intern, advised by Professor Uran Oh

- iOS App Development for Blinded Students
